EDUCATION

JAMIA MILLIA ISLAMIA
Bachelor of Technology, Computer Engineering
Oct 2020 - Aug 2024
New Delhi, India

CITY MONTESSORI SCHOOL
ISC Board, PCM
Sep 2018 - Jun 2020

COURSEWORK

UNDERGRADUATE

Data Structures
Analysis and Design of Algorithms
Operating Systems
Computer Networks
Database Management Systems
Compiler Design

SKILLS

PROGRAMMING

Over 5000 lines:
C++ • Java • Typescript • Javascript • Python
Over 1000 lines:
C • Kotlin
Familiar:
Go • Rust • Dart • PostgreSQL

TOOLS

Docker • OpenAPI • WebAssembly • Datadog • Tauri • Flutter • JetPack Compose • Mend.io • Spring • Git • Github • Gitlab • Tensorflow • OpenCV

SOFT SKILLS

Agile Methodologies
Cross-Functional Collaboration
Project Management
Stakeholder Communication
Analytical Problem-Solving
Adaptability

EXPERIENCE

S&P GLOBAL | Associate Software Engineer I
Jul 2024 - Present | Noida, UP, India
Private Equity Team.

- Engineered a robust, asynchronous **Event-Driven Architecture** to process and sync over 30k+ data entries per cycle from blob storage into a centralized database.
- Executed a seamless migration of the **core API Registry** from **Gradle** to **Maven**, for better organized management and streamlined the **CI/CD** pipeline, improving build **reliability** for all connected microservices.
- Spearheading the end-to-end development of a **Data Inventory** service, incorporating best practices such as **Test-Driven Development** (TDD), a **multi-tier authentication** system, and a highly elastic architecture to handle variable loads. include TDD, multi-tier auth, elasticity, metrics logging and analysis.

Tech: *Java*, *Spring Framework*, *Angular*, *XML*, *Python*, *AWS*, *Gitlab*, *Sonarqube*, *PostgreSQL*, *Okta Identity Cloud* , *Artifactory*

FLOQER | Core Software Development Engineer Intern
May 2023 - June 2024 | Halifax, NS, Canada (Remote)
Built stable and extensible products for the **startup**, helped grow customer base and investments.

- In-browser AI-powered note taking extension, developed by a **two member** tech team, from **nascent to production-ready** phase.
- A B2B venture, focused on AI-accelerated and personalised **sales automation** at scale, built upon customisable workflows.
- Strong, growing, customer base, including major companies like **Illumin**, **Deel**, **Apollo.io**, **Meetings.Bio** and **TeqFocus**

Tech: *JavaScript*, *TypeScript*, *Python*, *React*, *Next.js*, *Firebase (Cloud Functions*, *Database)*, *AWS (Database)*, *Phantombuster*, *Langchain*, *TailwindCSS*

PROJECTS

SUPER RESOLUTION Of depth elevation maps
Apr 2022 – Jul 2022
Research in Progress - ISRO Problem Statement Experimenting with Super-Resolution GANS, to learn a generator model which produces super-resolution DEMs for low-resolution DEMs.
Tech: *Python*, *RasterIO*, *Numpy*, *Pytorch*, *PIL*, *OpenCV*

CHATCHUCK | Real time chat application
Aug 2023 - Sep 2023
Implemented chat feature with websockets. Handled stale state, timeout sessions, file handling, cookie based authorization and made an overall robust application with an intuitive and immersive user interface.
Tech: *TypeScript*, *JavaScript*, *React*, *Node*, *Express*, *MongoDB*, *WebSockets*, *JWT*

CERTIFICATES

Object Oriented Data Structures in C++ — Jan, 2023
Coursera

Mathematics for Machine Learning : PCA — Feb, 2023
Coursera

Mathematics for Machine Learning : Multivariate Calculus — Feb, 2023
Coursera
